

KARTHICK K

Java Full Stack Developer

Tamil Nadu, India | +91 8489603015 | kkarthikkarthick31@gmail.com | github.com/kkarthikarthick31 | linkedin.com/in/kkarthi2004

PROFESSIONAL SUMMARY

Java Full Stack Developer with 6 months of internship experience building full-stack applications end to end — REST APIs in Spring Boot, relational schemas in MySQL, and interfaces in ReactJS. Delivered an inventory management platform and a blockchain-based food traceability system across two internships, handling everything from database design to API testing in Postman. Completed LeetCode's Top SQL 50 program and was recognized by the Managing Director at Top Tech Developers for performance. Seeking an entry-level Full Stack Developer role to keep shipping production-grade features.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL

Frameworks / Technologies: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, ReactJS, HTML, CSS, REST APIs, JWT

Databases: MySQL, PostgreSQL, JDBC

Core Concepts: OOP, Data Structures, Collections, MVC Architecture, Exception Handling, Authentication & Authorization

Tools: Git, GitHub, Postman, Maven, VS Code, Eclipse

INTERNSHIP EXPERIENCE

Software Development Intern — Top Tech Developers, Chennai

Jan 2026 – Apr 2026

- Built core modules of a blockchain-based Farmer-to-Consumer Food Traceability System using Java and MySQL
- Designed and implemented supplier management and buyer verification workflows
- Modeled and maintained the MySQL schema for product and transaction data
- Collaborated with a cross-functional team through daily development and testing cycles

Java Full Stack Development Intern — Crud Academy, Karur

Apr 2025 – May 2025

- Implemented REST APIs in Spring Boot to power inventory management features, including full CRUD operations
- Integrated the API layer with a MySQL database for persistent inventory records
- Tested endpoint behavior in Postman ahead of frontend integration
- Worked in an Agile setup across sprint planning, development, and testing

PROJECTS

Inventory Management System — Java, Spring Boot, ReactJS, MySQL, REST APIs, Git

- Built a full-stack application for product management, stock tracking, and CRUD operations
- Designed REST API endpoints in Spring Boot and integrated them with a MySQL database
- Developed the ReactJS frontend and connected it to backend APIs for an end-to-end flow
- Tested all API endpoints in Postman before wiring up the frontend

Farmer-to-Consumer Food Traceability System — Java, Blockchain, MySQL

- Built a blockchain-based system to track products from farmers to consumers
- Implemented supplier management and buyer verification modules
- Designed the MySQL database schema for storing product and transaction details

EDUCATION

Master of Computer Applications (MCA) — Dhanalakshmi Srinivasan University

2024 – 2026

Score: 80%

Bachelor of Computer Applications (BCA) — SRM University, Chennai

2021 – 2024

Score: 78%

CERTIFICATIONS & ACHIEVEMENTS

- LeetCode Top SQL 50 — joins, subqueries, window functions, aggregation, ranking, CTEs, query optimization
- Programming in Java — NPTEL (71%)
- Java Full Stack Project Completion — Top Tech Developers
- Recognized by the Managing Director at Top Tech Developers for internship performance

SOFT SKILLS & LANGUAGES

Soft Skills: Problem Solving, Teamwork, Communication | **Languages:** Tamil, English
